Executive Summary

At the request of the City of Middletown (referred to herein as the "Client") and in accordance with Vanasse Hangen Brustlin, Inc.'s (VHB) proposal dated November 30, 2004, VHB conducted an ASTM Phase I Environmental Site Assessment (ESA) for the properties located at 117 and 121 Main Street Extension in Middletown, Connecticut (collectively referred to herein as the "Site"). It is VHB's understanding that the Client is interested in evaluating environmental conditions at these properties for purposes associated with the City of Middletown's Riverfront Revitalization Project.

This Phase I ESA was conducted in conformance with the ASTM E 1527-00 Standard Practice for Environmental Site Assessment to identify Recognized Environmental Conditions (RECs) at and/or in the vicinity of the Site. The scope of services included: a historical records review; a federal and state environmental database search; a state and municipal file review; a Site reconnaissance to identify overt evidence of a release or threat of a release of oil or hazardous materials (OHM); and interviews with people knowledgeable about the Site. This Phase I ESA is subject to the terms of the agreement between VHB and the Client and the Limitations included in Appendix A. At the time of this investigation, VHB was not granted physical access to the Site, as these properties are not owned by the Client. Therefore, VHB's Site reconnaissance was limited to exterior observations made during a drive-by windshield survey.

Site Location and Description — The Site consists of four separate and continuous parcels of land identified by the City of Middletown Assessors Office on Map No. 34, as Block 24-10, Lots 8 through 11. The Site consists of 1.2 acres of land located along the west side of Main Street Extension south of the Route 9 access ramps. The Site is improved with two commercial office buildings and associated paved parking lot. Current tenants include the State of Connecticut Department of Social Services (DSS) located at 117 Main Street Extension, and the State of Connecticut Department of Children and Families (DCF) located at 121 Main Street Extension.

The north side of the Site is bounded by the Route 9 access ramp. Residential and commercial properties are located along Main Street Extension to the south and west of the Site. Residential properties are located along Cooley Avenue to the south of the Site, and Sumner Creek bounds the west side of the Site. A manufacturing facility is located at the intersection of Main Street Extension and Cooley Avenue to the southeast of the Site. The current tenants of this facility could not be identified during the windshield survey. A Sunoco gasoline station is located south of the Site. The Middlesex Supply Company occupies property located southeast of the Site.

Site History — Files and historic documents reviewed indicate that the Site has historically been utilized for commercial office space since the early 1950s. Based on assessor's records, the two current on-Site buildings were erected on the property in 1951

and 1952. According to City directories reviewed, the Site appears to have been occupied by the current tenants since circa 1960.

Prior to development, the majority of the Site appears to have existed as undeveloped land except for 5 residential structures that formerly occupying the eastern portion of the Site (Lot 8). It is believed that these houses were demolished when construction of the Route 9 access ramps began in the early 1950s.

Main Street Extension was not listed in the City directories reviewed dated prior to 1940. Directories dated 1940 to 2002 reviewed indicate that Main Street Extension has primarily consisted of a mixture of residential and commercial business/office listings.

According to information provided in the property deeds reviewed, the Middlesex Supply Company owned the Site properties until June 1966. The Middlesex Supply Company is a distributor of plumbing supplies and is listed in 1945, 1950, 1955, 1960, and 1965 directories on Main Street Extension, however, no numerical address is provided. The 1970 directory identifies this company at 180 Main Street Extension, its current address, located southeast of the Site. VHB was unable to conclude, based on historical documentation reviewed, whether this company was a tenant of the Site from the 1950s to the 1970s. Marino Plumbing and Heating is listed in 1981, 1985, and 1990 directories as occupying 121 Main Street Extension.

The area surrounding the Site historically consisted of a mixture of residential and commercial land uses. The southerly abutting property has been occupied by a residential structure since as early as 1893. The manufacturing facility located at the intersection of Main Street Extension and Cooley Avenue, to the southeast of the Site, has been occupied by various manufactures of silk and braided goods from the 1880s to approximately the 1930s. The Route 9 entrance ramp is not depicted on the 1951 and 1934 aerial photographs and the surrounding properties appear to be less developed. Sumner Creek has historically abutted the Site to the west.

Site Reconnaissance — VHB performed a windshield survey on January 7, 2005. VHB was not granted access to the Site properties. Therefore, VHB's Site reconnaissance was limited to exterior observations conducted from adjacent publicly-accessible areas. No overt evidence of a significant release or threat of a release of OHM was observed during the windshield survey.

The Site consists of 1.2 acres of land located along the west side of Main Street Extension. Two commercial office buildings occupy the eastern side of the Site. One is a single-story brick building at 121 Main Street Extension occupied by DCF, and the other a three-story brick commercial building at 117 Main Street Extension occupied by DSS. The Site is accessible via a one-way asphalt-paved drive that extends in a westerly direction off of Main Street Extension. The entrance drive intersects the central region of the Site, extending between the two commercial structures, and provides access to a large asphalt-paved parking lot occupying the western portion of the Site.

Four (4) 55-gallon drums labeled "Antifreeze" were observed, when driving down the public access way towards the parking lot, along the north side of the building at 121 Main Street. These drums appeared to be in good condition. No leaks or staining were observed in association with the drums. Vent and fill pipes, possibly associated with an aboveground or underground storage tank (AST/UST), were also observed on the north and south sides of this building.

Regulatory File Search— VHB performed an environmental database search for listings of on-Site and nearby properties having potential environmental concerns. VHB also reviewed files for the Site available at the Connecticut Department of Environmental Protection (CTDEP) to identify potential environmental issues associated with the Site. The Site is listed as a State Spill Site, identified as "117 East Main Street Extension DSS". The database report depicts this property as being located 0.19 mile northwest of the Site. However based on the address information and the assumption that "DSS" is the acronym for Department of Social Services, this spill incident likely occurred at the Site, and may have been incorrectly mapped by the FirstSearch™ database report. According to the report, unknown dumping of a brown oily substance was reported at this property on October 18, 2001. No further information was provided. This spill incident is considered "closed" by the CTDEP.

According to the database search, several additional listings including State Spills, LUSTs, and State Hazardous Waste sites were identified within the general vicinity of the Site. The aforementioned Sunoco gasoline service station, identified in the database report as Frank's Auto Service located at 159 Main Street Extension, is listed as a RCRA generator of hazardous waste and a UST site. This property is considered to be topographically cross-gradient of the Site. Therefore, this listing is not expected to have a direct impact on subsurface environmental conditions at the Site. The aforementioned Middlesex Plumbing Supply Company is identified in the database report at 10 Cooley Avenue and listed as a LUST and Spill site. This property is located in close proximity to and topographically up-gradient of the Site.

According to the database search, several additional listings were identified within the general vicinity of the Site. These documented incidents at these properties and the historic urban nature of the vicinity have likely contributed to the area's GB groundwater classification, indicating known degraded conditions.

Conclusions— VHB understands that the Client is interested in evaluating environmental conditions at these properties for purposes associated with the City of Middletown's Riverfront Revitalization Project. Based on our investigation, no RECs were identified at the Site during the windshield survey. However, Site observations were limited to a windshield view and the potential for on-Site RECs may exist.

Recommendations - Based on our investigation, VHB recommends that access be granted to the Site in order to fully evaluate the properties for any additional environmental concern.

1

Introduction

Purpose and Scope of Work

At the request of the City of Middletown (referred to herein as the "Client"), Vanasse Hangen Brustlin, Inc. (VHB) conducted an ASTM Phase I Environmental Site Assessment (ESA) on the properties located at 117 and 121 Main Street Extension in Middletown, Connecticut (collectively referred to herein as the "Site"). It is VHB's understanding that the Client is interested in evaluating environmental conditions at these properties for purposes associated with the City of Middletown's Riverfront Revitalization Project.

The Phase I ESA was conducted in conformance with the ASTM E 1527-00 Standard Practice for Environmental Site Assessment to identify Recognized Environmental Conditions (RECs) at and/or in the vicinity of the Site.

The scope of services included: a historical records review; a federal and state environmental database search; a state and municipal file review; a Site reconnaissance to identify overt evidence of a release or threat of a release of oil or hazardous materials (OHM); and interviews with people knowledgeable about the Site. This Phase I ESA is subject to the terms of the agreement between VHB and the Client and the Limitations included in Appendix A. At the time of this investigation, VHB was not granted access to the Site properties. Therefore, VHB's Site reconnaissance was limited to exterior observations made from adjacent, publicly-accessible areas made during a drive by windshield survey.

2

Project Location/Description

Site Location and Description

The Site consists of four parcels of land identified by the City of Middletown Assessors Office on Map No. 34, as Block 24-10, Lots 8 through 11. Refer to Figure 1 and 2 for depictions of the Site location and current configuration. The Site consists of 1.2 acres of land located along the west side of Main Street Extension south of the Route 9 access ramp. The Site is improved with two commercial office buildings and a paved parking lot. Current tenants include the State of Connecticut Department of Social Services (DSS) located at 117 Main Street Extension, and the State of Connecticut Department of Children and Families (DCF) located at 121 Main Street Extension.

The north side of the Site is bounded by the Route 9 access ramp. Residential and commercial properties are located along Main Street Extension to the south and west of the Site. Residential properties are located along Cooley Avenue to the south of the Site, and Sumner Creek bounds the west side of the Site. A Sunoco gasoline station is located south of the Site. A manufacturing facility is located at the intersection of Main Street Extension and Cooley Avenue to the southeast of the Site. The current tenants of this facility could not be identified during the windshield survey. The Middlesex Supply Company occupies property also located southeast of the Site. Refer to the table located in Section 3 of this report, Historical/Records Review, Assessor's Office, for additional information obtained from the current Assessors cards for each parcel.

Site Utilities

Overhead electric service is provided to the Site by Connecticut Light and Power. Municipal water and sewer services provided by the City of Middletown are available at the Site. Vent and fill pipes were observed on the north and south sides of DCF building located at 121 Main Street Extension. Based on these observations, it is assumed that this building is heated via oil.

Environmental Setting

Topography

According to the United States Geological Survey (USGS) 7.5-Minute Quadrangle Middletown, Connecticut topographic map, the southeast corner of the Site is approximately 50 feet above sea level (asl) and slopes down to the west. The western portion of the Site is approximately 25-feet (asl).

Soils/Geology

Surficial soils in the vicinity of the southern portion of the Site are classified as till and the soil in the vicinity of the northern portion of the Site are classified as alluvium overlying sand and gravel.

Bedrock geology underlying the Site property is identified as the Portland Arkose Formation. This formation/bedrock consists of red-to-brown, medium-to-coarse grained, sandstone-like, sedimentary rock, consisting of quartz, feldspar, and other various rock fragments.

Hydrology

Groundwater below and near the site is classified by the CTDEP as a GB groundwater area. The GB classification indicates groundwater within a historically highly urbanized area or an area of intense industrial activity and where public water supply service is available. Such groundwater may not be suitable for human consumption without treatment due to waste discharges, spills or leaks of chemicals or land use impacts.

Groundwater flow direction may be impacted locally by surface topography, hydrology, hydrogeology and soil characteristics. Based on available hydrogeological references for regional groundwater flow in the vicinity of the Site, groundwater is estimated to flow beneath the Site in a westerly direction towards Sumner Creek.

Wetlands

Based on Site observations and the CTDEP wetland and watercourse Geographic Information Systems (GIS) data dated 2003, wetlands appear to be located along the western boundary of the Site, associated with Sumner Creek. VHB also reviewed a Comprehensive Drainage Study for the City of Middletown dated 1982 prepared by Purcell Associates available at the Planning, Conservation and Development office which supports this information. A formal survey by a qualified wetland scientist that would definitively identify such systems is outside the scope of this Phase I ESA and has not been performed.

Surface Waterbodies

The Sumner Creek, flowing generally north to south, runs abuts the western boundary of the Site. Sumner Creek is considered by CTDEP to be classified as Class C/B. Due to point or nonpoint sources of pollution, certain Water Quality Criteria or one or more designated uses assigned to Class B waters (recreational use, fish and wildlife habitat, agricultural and industrial supply and other legitimate uses, including navigation) are not currently met. The water quality goal is achievement of Class B Criteria and attainment of Class B designated uses.

The Connecticut River is located approximately 2,500-feet northeast of the Site. This river is a Class SC/SB waterbody indicating that it does not presently meet Water Quality Criteria or does not support one or more assigned designated uses (fish, shellfish, and wildlife habitat, certain aquaculture operations, recreational uses, industrial and other legitimate uses, including navigation) due to pollution. The goal for such waters is Class SB.

Flood Plains

According to the Federal Emergency Management Agency (FEMA) National Flood Insurance Program (NFIP) Flood Zone Mapping Community Panels #0900680008B and #0900680009B, the western half of the Site is located within the 100-year flood plain for the Sumner Creek.

3

Historical/Records Review

Summary

Files and historic documents reviewed indicate that the Site has historically been utilized for commercial office space purposes since the early 1950s. Based on assessor's records, the two current on-Site buildings were erected on the property in 1951 and 1952. According to City directories reviewed, the Site appears to have been occupied by the current tenants since circa 1960. Prior to the early 1950s, the majority of the Site appears to have existed as undeveloped land except for 5 residential structures that formerly occupied the eastern portion of the Site (Lot 8). It is believed that these houses were demolished when construction of the Route 9 access ramps began in the early 1950s.

Main Street Extension was not listed in the City directories reviewed prior to 1940. Directories dated 1940 to 2002 reviewed indicate that Main Street Extension has primarily consisted of a mixture of residential and commercial business/office listings.

According to information provided in the property deeds reviewed, the Middlesex Supply Company owed the Site properties until June 1966. The Middlesex Supply Company is a distributor of plumbing supplies and is listed in 1945, 1950, 1955, 1960, and 1965 directories on Main Street Extension, however, no numerical address is provided. The 1970 directory identifies this company at 180 Main Street Extension, its current address, located southeast of the Site. VHB was unable to conclude, based on historical documentation reviewed, whether this company occupied the Site from the 1950s to the 1970s. Marino Plumbing and Heating is listed in 1981, 1985, and 1990 directories as occupying 121 Main Street Extension.

The area surrounding the Site historically consisted of a mixture of residential and commercial land uses. The southerly abutting property has been occupied by a residential structure since as early as 1893. . The manufacturing facility located at the intersection of Main Street Extension and Cooley Avenue, to the southeast of the Site, has been occupied by various manufactures of silk and braided goods from the 1880s to approximately the 1930s. The Route 9 entrance ramp is not depicted on the 1951 and 1934 aerial photographs and the surrounding properties appear to be less developed. Sumner Creek has historically abutted the Site to the west.

Local Government Agency Record Review

VHB personnel visited the City of Middletown municipal offices in November 2004 to obtain information regarding Site history and use, zoning, and OHM use, storage, release and/or disposal practices that may have occurred at the Site. All pertinent file information is attached in Appendix C.

Site Ownership

According to information reviewed at the Assessor's Office, the current owner of the Site properties is identified as Carmelo J. Marino. Based on the current property deed for the Site (Book 352, Page 144), Carmelo J. Marino purchased the Site property from Mae Kahan on March 30, 1967. It appears that this property was conveyed to the grantor, Mae Kahan, by The Middlesex Supply Company on June 1, 1966.

No environmental liens were identified during the local file review. A certified title search where environmental liens would be definitively identified is not within the scope of services for this Phase I ESA and was not performed. A title company is capable of completing a full title and environmental lien search.

Assessor's Office

The Site is identified by the City of Middletown Assessors Map 34, as Block 24-10, Lots 8 through 11. No Assessors cards were available for Lots 10 and 11. Lot 10 is a .166-acre parcel of vacant land located along the north side of Lot 8. Lot 11 is a 1.2-acre asphalt-paved parking lot located along the west side of Lot 8. Refer to the table below for additional information obtained from the current Assessors cards for each parcel.

Area 4						
Parcel I.D.	Address	Current Owner	Zoning	Lot Size (Acres)	Improvements	Construction Date
Lot 8	121 Main Street Extension	Carmelo J. Marino	TD	0.71	9,662 sq. ft. single-story commercial office building occupied by the State of Connecticut Department of Children and Families	1951
Lot 9	117 Main Street Extension	Carmelo J. Marino	TD	0.26	6,344 sq. ft. three-story commercial office building occupied by the State of Connecticut Dept. of Social Services	1952

Fire Marshal

VHB conducted a file review of the City of Middletown Fire Marshal's records. No files exist for the Site.

Building Department

VHB reviewed the City of Middletown's Building Department files for the Site. No building permit applications were found on file for the Site:

Planning, Conservation, and Development Department

VHB reviewed the City of Middletown's Planning, Conservation, and Development Department files for the Site; no information was identified for the Site.

Department of Health

VHB visited the City of Middletown's Health Department on December 28, 2004 to request a file review for the Site properties. VHB specifically requested files regarding spills, releases, storage tanks, and any issues/violations identified for the Site properties. According to Vincent Mazzotta, Public Health Sanitarian for the City of Middletown, no files exist for any of the Site properties.

Historical Maps

VHB reviewed historical Sanborn Fire Insurance maps dated (dated 1884, 1889, 1895, 1901, 1907, 1913, and 1924) for the City of Middletown available at the Connecticut State Library. The Site was not depicted on any of the Sanborn Maps reviewed.

The manufacturing facility at the intersection of Main Street Extension and Cooley Avenue, located to the southeast of the Site is depicted as being occupied by various manufactures of silk and braided goods. Several factory structures, including a dye/storage house, a spinning, spooling, and winding house, an office and storage building, and a large weaving and warping building are depicted on this property. A structure labeled "gas generator" is depicted on the property. A 5,568-gallon raised cistern tank, a 10,000 gallon water tank and a 1,000-gallon oil tank is depicted on the Sanborn maps reviewed.

VHB reviewed a State of Connecticut Atlas dated 1893, which indicated that the Site was vacant land. The "Spillane House" is depicted on the southerly abutting parcel.

Historical City Directories

VHB reviewed City of Middletown Directories dated 1925, 1930, 1935, 1940, 1945, 1950, 1955, and 1960, available at the Connecticut State Library, and directories dated 1915, 1920, 1965, 1970, 1975, 1981, 1985, 1990, 1996, and 2002, available at the Middletown Public Library. There was no listing for Main Street Extension in the directories prior to 1940. Listings for Main Street Extension in the vicinity of the Site in directories dated 1940 through 2002 are primarily residential with the following exceptions:

- "The Middlesex Supply Company", distributor of plumbing supplies is listed in 1945, 1950, 1955, 1960, and 1965 directories on Main Street Extension. No numerical address was given. This company is listed in the 1970 directory at 180 Main Street Extension.
- The "Welfare Department" is listed on the 1960 and 1965 directories on Main Street Extension. No numerical address was given
- "Marino Plumbing and Heating" is listed in the 1970 and 1975 directories at 127 Main Street Extension and is listed in the 1981, 1985, and 1990 directories at 121 Main Street Extension.
- "Children & Youth Services" is listed in the 1990 directory at 121 Main Street Extension.
- "Connecticut Family Services" is listed in the 1985 directory at 117 East Main Street; the 1990 Directory lists "Income Maintenance Department and Vinal Co-Tech Rehab" at 117 Main Street Extension; and the 1996 and 2002 directories lists "Department of Social Services at 117 Main Street Extension.

According to historical directories, the manufacturing facility at the intersection of Main Street Extension and Cooley Avenue located to the southeast of the Site, list Middlesex Supply Company, plumbing supplies, Middletown Electric Supply, Inc., Formatron Equipment Corporation, beauty shop supplies, and the Middlesex Merchandise Company Inc., paper manufactures as former occupants of this facility.

Aerial Photography

VHB reviewed aerial photographs for the Site dated 1995, 1990, 1985, 1980, 1970, 1965, 1951 and 1934 available at the Connecticut State Library.

1995 Aerial Photographs

The configuration of the Site and adjacent properties appears to be similar to current conditions with two commercial structures located on the east side of the Site. An asphalt-paved parking lot appears west of the structures. The Route 9 access ramps are

visible north of the Site. Residential development along Cooley Avenue is depicted south of the Site. Sumner Creek abuts the Site to the west. A mixture of commercial and residential land use is evident along Main Street Extension east of the Site, including the aforementioned manufacturing facility located to the southeast of the Site.

1990 Aerial Photographs

Similar to conditions depicted in the 1995 aerial photograph.

1985 Aerial Photograph

Similar to conditions depicted in the 1990 aerial photograph.

1980 Aerial Photograph

Similar to conditions depicted in the 1985 aerial photograph.

1970 Aerial Photograph

Similar to conditions depicted in the 1980 aerial photograph.

1965 Aerial Photograph

Similar to conditions depicted in the 1970 aerial photograph.

1951 Aerial Photograph

Only one commercial structure appears to be located at the Site in the vicinity of Lot 9. Lot 8 appears to be occupied by approximately five residential structures. The western half of the Site appears to be undeveloped. The Route 9 access ramps are not depicted; undeveloped forested land abuts the Site to the north and west. Residential properties are present south of the Site. Land east of Main Street Extension appears to be a mixture of undeveloped, residential, and commercial properties. The aforementioned manufacturing facility to the southeast of the Site is not depicted as it currently exists. The only one manufacturing building is depicted along Cooley Avenue.

1934 Aerial Photograph

Main Street Extension does not exist. The majority of the Site exists as undeveloped, forested land. Approximately five residential structures are present in the eastern half of the Site. Vacant land surrounds the Site to the north, west, and south. Residential development dominates the properties situated east of the Site except for the single manufacturing building.

4

Site Reconnaissance

Current Uses and Activities

VHB performed a drive by windshield survey at the Site on January 7, 2005. VHB was not granted access to the Site properties. Therefore, VHB's Site reconnaissance was limited to exterior observations conducted from adjacent, publicly-accessible areas. No overt evidence of a significant release or threat of a release of OHM was observed during the windshield survey. Site photographs are attached in Appendix D.

The Site is located along the west side of Main Street Extension. Two commercial office buildings occupy the eastern side of the Site. One is a single-story brick building at 121 Main Street Extension occupied by DCF, and the other a three-story brick commercial building at 117 Main Street Extension occupied by DSS. The subject property is accessible via a one-way asphalt-paved drive that extends in a westerly direction off of Main Street Extension. The entrance drive intersects the central region of the Site, extending between the two commercial structures, and provides access to a large asphalt-paved parking lot occupying the majority of the western portion of the Site.

Hazardous Materials/Petroleum Products Storage and Handling

Four (4) 55-gallon drums labeled "Antifreeze" were observed, when driving down the public access way towards the parking lot, along the north side of the building at 121 Main Street. These drums appeared to be in good condition. No leaks or staining were observed in association with the drums. Vent and fill pipes, possibly associated with an AST or UST were also observed on the north and south sides of this building.

No additional evidence of petroleum products/hazardous materials was observed during the windshield survey. However, observations were limited to exterior portions of the Site. Therefore, a thorough inspection for hazardous materials/petroleum products storage and handling at the Site could not be completed.

Waste Generation, Treatment, Storage and Disposal

No evidence of hazardous waste generation, treatment, storage or disposal was observed during the Site reconnaissance.

Polychlorinated Biphenyls

No known sources of polychlorinated biphenyls (PCBs) were observed on exterior portions of the Site.

Storage Tanks and Piping

Vent and fill pipes were observed on the north and south sides of the 121 Main Street Extension building. These pipes are possibly associated with ASTs and/or USTs. No additional vent/fill pipes were observed during the windshield survey.

Surface Conditions

At the time of the Site reconnaissance several inches of snow covered the ground surface, and therefore, VHB was unable to conduct a visual assessment of surface conditions at the Site.

5

Regulatory File Search

VHB conducted file reviews to evaluate the potential for the Site and surrounding properties in the vicinity of the Site to have had a release or pose a threat of release of OHM, and which may impact the environmental quality of the Site. VHB reviewed federal and state environmental information sources using FirstSearch™ databases.

VHB reviewed the following the FirstSearch™ environmental databases: Emergency Response Notification System (ERNs); National Priority List (NPL) sites; Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS); Resource Conservation and Recovery Act (RCRA) Treatment, Storage, and Disposal (TSD) facilities list; RCRA hazardous waste generators and no longer registered (NLR) hazardous waste generators; state list of hazardous waste sites; state list of spills sites; Active Solid Waste Landfill (SWL) facilities; registered underground storage tanks (USTs); and leaking USTs (LUSTs). The FirstSearch™ report is attached as Appendix B. Database search radii were chosen generally in accordance with the ASTM E 1527-00 Standard Practice for Environmental Site Assessment:

DATABASE	ASTM SEARCH RADIUS	NUMBER OF SITES WITHIN SEARCH RADIUS
ERNs sites	0.25 mile	2
NPL sites	1 mile	0
CERCLIS sites	0.5 mile	1
RCRA TSD	0.5 mile	2
RCRA COR	1 mile	2
RCRA Generators	0.25 mile	5
RCRA NLR Generators	0.25 mile	1
State Hazardous Waste Sites	1 mile	20
State Spills	0.25 mile	45*
SWL facilities	0.5 mile	0
Registered USTs	0.25 mile	13
LUSTs	0.5 mile	39

* Includes Site listing

The FirstSearch™ report lists the Site as a State Spill Site, identified at "117 East Main Street Extension DSS". The database report depicts this property as being located 0.19 mile northwest of the Site. However based on the address information and the assumption that "DSS" is the acronym for Department of Social Services, this spill incident likely occurred at the Site, and may have been incorrectly mapped by FirstSearch™. According to the database report, unknown dumping of a brown oily substance was reported at this property on October 18, 2001. No further information was provided. This spill incident is considered "closed" by the CTDEP.

According to the database search, several additional listings including State Spills, LUSTs, and State Hazardous Waste sites were identified within the general vicinity of the Site. The aforementioned Sunoco gasoline service station, identified in the database report as Frank's Auto Service located at 159 Main Street Extension, is listed as a RCRA generator of hazardous waste and a UST site. This property is considered to be topographically cross-gradient of the Site. Therefore, this listing is not expected to have a direct impact on subsurface environmental conditions at the Site. The aforementioned Middlesex Plumbing Supply Company is identified in the database report at 10 Cooley Avenue and listed as a LUST and Spill site. This property is located in close proximity to and topographically up-gradient of the Site.

According to the database search, several additional listings were identified within the general vicinity of the Site. These documented incidents at these properties and the historic urban nature of the vicinity have likely contributed to the area's GB groundwater classification, indicating known degraded conditions.

FirstSearch™ identified a total of forty-six non-geocoded sites, which are sites with minimal or no address information located within the Site zip code area. VHB personnel has reviewed these non-geocoded site listings to determine which listings, if any, could be associated with the Site or is located within the specified search radii. Based on our review, none of these listings appear be associated with the Site property; none of these listing are expected to directly impact environmental conditions at the Site.

Department of Environmental Protection

VHB conducted a file review at the CTDEP's Bureau of Waste and Bureau of Water's public file room on January 11, 2005. No files were identified for the Site.

6

Adjacent Properties

The Site is located in a mixed residential and commercial/retail area of Middletown, Connecticut. Route 9 access ramps about the Site to the north. Residential and commercial properties exist across Main Street Extension to the east of the Site. Residential properties along Cooley Avenue and commercial properties along Main Street Extension including, Amazing Grace and Positive Solutions Inc. bound the south side of the Site. A manufacturing facility is located at the intersection of Main Street Extension and Cooley Avenue to the southeast of the Site. The current tenants of this facility could not be identified during the windshield survey. A Sunoco gasoline station is situated south of Cooley Avenue and the Middlesex Supply Company occupies property located southeast of the Site. Sumner Creek bounds the west side of the Site.

7

Summary of Findings

At the request of the City of Middletown (referred to herein as the "Client") and in accordance with Vanasse Hangen Brustlin, Inc.'s (VHB) proposal dated November 30, 2004, VHB conducted an ASTM Phase I Environmental Site Assessment (ESA) for the properties located at 117 and 121 Main Street Extension in Middletown, Connecticut (collectively referred to herein as the "Site"). It is VHB's understanding that the Client is interested in evaluating environmental conditions at these properties for purposes associated with the City of Middletown's Riverfront Revitalization Project.

This Phase I ESA was conducted in conformance with the ASTM E 1527-00 Standard Practice for Environmental Site Assessment to identify Recognized Environmental Conditions (RECs) at and/or in the vicinity of the Site. The scope of services included: a historical records review; a federal and state environmental database search; a state and municipal file review; a Site reconnaissance to identify overt evidence of a release or threat of a release of oil or hazardous materials (OHM); and interviews with people knowledgeable about the Site. This Phase I ESA is subject to the terms of the agreement between VHB and the Client and the Limitations included in Appendix A. At the time of this investigation, VHB was not granted physical access to the Site, as these properties are not owned by the Client. Therefore, VHB's Site reconnaissance was limited to exterior observations made during a drive-by windshield survey.

Site Location and Description — The Site consists of four separate and continuous parcels of land identified by the City of Middletown Assessors Office on Map No. 34, as Block 24-10, Lots 8 through 11. The Site consists of 1.2 acres of land located along the west side of Main Street Extension south of the Route 9 access ramps. The Site is improved with two commercial office buildings and associated paved parking lot. Current tenants include the State of Connecticut Department of Social Services (DSS) located at 117 Main Street Extension, and the State of Connecticut Department of Children and Families (DCF) located at 121 Main Street Extension.

The north side of the Site is bounded by the Route 9 access ramp. Residential and commercial properties are located along Main Street Extension to the south and west of the Site. Residential properties are located along Cooley Avenue to the south of the Site, and Sumner Creek bounds the west side of the Site. A manufacturing facility is located at the intersection of Main Street Extension and Cooley Avenue to the southeast of the Site. The current tenants of this facility

could not be identified during the windshield survey. A Sunoco gasoline station is located south of the Site. The Middlesex Supply Company occupies property located southeast of the Site.

Site History — Files and historic documents reviewed indicate that the Site has historically been utilized for commercial office space since the early 1950s. Based on assessor's records, the two current on-Site buildings were erected on the property in 1951 and 1952. According to City directories reviewed, the Site appears to have been occupied by the current tenants since circa 1960.

Prior to development, the majority of the Site appears to have existed as undeveloped land except for 5 residential structures that formerly occupying the eastern portion of the Site (Lot 8). It is believed that these houses were demolished when construction of the Route 9 access ramps began in the early 1950s.

Main Street Extension was not listed in the City directories reviewed dated prior to 1940. Directories dated 1940 to 2002 reviewed indicate that Main Street Extension has primarily consisted of a mixture of residential and commercial business/office listings.

According to information provided in the property deeds reviewed, the Middlesex Supply Company owned the Site properties until June 1966. The Middlesex Supply Company is a distributor of plumbing supplies and is listed in 1945, 1950, 1955, 1960, and 1965 directories on Main Street Extension, however, no numerical address is provided. The 1970 directory identifies this company at 180 Main Street Extension, its current address, located southeast of the Site. VHB was unable to conclude, based on historical documentation reviewed, whether this company was a tenant of the Site from the 1950s to the 1970s. Marino Plumbing and Heating is listed in 1981, 1985, and 1990 directories as occupying 121 Main Street Extension.

The area surrounding the Site historically consisted of a mixture of residential and commercial land uses. The southerly abutting property has been occupied by a residential structure since as early as 1893. The manufacturing facility located at the intersection of Main Street Extension and Cooley Avenue, to the southeast of the Site, has been occupied by various manufactures of silk and braided goods from the 1880s to approximately the 1930s. The Route 9 entrance ramp is not depicted on the 1951 and 1934 aerial photographs and the surrounding properties appear to be less developed. Sumner Creek has historically abutted the Site to the west.

Site Reconnaissance — VHB performed a windshield survey on January 7, 2005. VHB was not granted access to the Site properties. Therefore, VHB's Site reconnaissance was limited to exterior observations conducted from adjacent publicly-accessible areas. No overt evidence of a significant release or threat of a release of OHM was observed during the windshield survey.

The Site consists of 1.2 acres of land located along the west side of Main Street Extension. Two commercial office buildings occupy the eastern side of the Site. One is a single-story brick building at 121 Main Street Extension occupied by DCF, and the other a three-story brick commercial building at 117 Main Street Extension occupied by DSS. The Site is accessible via a one-way asphalt-paved drive that extends in a westerly direction off of Main Street Extension. The entrance drive intersects the central region of the Site, extending between the two

commercial structures, and provides access to a large asphalt-paved parking lot occupying the western portion of the Site.

Four (4) 55-gallon drums labeled "Antifreeze" were observed, when driving down the public access way towards the parking lot, along the north side of the building at 121 Main Street. These drums appeared to be in good condition. No leaks or staining were observed in association with the drums. Vent and fill pipes, possibly associated with an aboveground or underground storage tank (AST/UST), were also observed on the north and south sides of this building.

Regulatory File Search— VHB performed an environmental database search for listings of on-Site and nearby properties having potential environmental concerns. VHB also reviewed files for the Site available at the Connecticut Department of Environmental Protection (CTDEP) to identify potential environmental issues associated with the Site. The Site is listed as a State Spill Site, identified as "117 East Main Street Extension DSS". The database report depicts this property as being located 0.19 mile northwest of the Site. However based on the address information and the assumption that "DSS" is the acronym for Department of Social Services, this spill incident likely occurred at the Site, and may have been incorrectly mapped by the FirstSearch™ database report. According to the report, unknown dumping of a brown oily substance was reported at this property on October 18, 2001. No further information was provided. This spill incident is considered "closed" by the CTDEP.

According to the database search, several additional listings including State Spills, LUSTs, and State Hazardous Waste sites were identified within the general vicinity of the Site. The aforementioned Sunoco gasoline service station, identified in the database report as Frank's Auto Service located at 159 Main Street Extension, is listed as a RCRA generator of hazardous waste and a UST site. This property is considered to be topographically cross-gradient of the Site. Therefore, this listing is not expected to have a direct impact on subsurface environmental conditions at the Site. The aforementioned Middlesex Plumbing Supply Company is identified in the database report at 10 Cooley Avenue and listed as a LUST and Spill site. This property is located in close proximity to and topographically up-gradient of the Site.

According to the database search, several additional listings were identified within the general vicinity of the Site. These documented incidents at these properties and the historic urban nature of the vicinity have likely contributed to the area's GB groundwater classification, indicating known degraded conditions.

Conclusions— VHB understands that the Client is interested in evaluating environmental conditions at these properties for purposes associated with the City of Middletown's Riverfront Revitalization Project. Based on our investigation, no RECs were identified at the Site during the windshield survey. However, Site observations were limited to a windshield view and the potential for on-Site RECs may exist.

- This report has been prepared for the sole and exclusive use of The City of Middletown, its affiliates and subsidiaries and their successors, assigns and grantees. It is subject to and issued in connection with the Agreement and the provisions thereof. Any use or reliance upon information provided in this report, without the specific written authorization of the Client and VHB, shall be at the User's sole risk.
- In conducting this Assessment, VHB has obtained and relied upon information from multiple sources to form certain conclusions regarding potential environmental issues at and in the vicinity of the subject property. Except as otherwise noted, no attempt has been made to verify the accuracy or completeness of such information.
- The objectives of the Assessment described in this report were to assess the physical characteristics of the subject property with respect to overt evidence of past or present use, storage, and/or disposal of oil or hazardous materials, as defined in applicable state and federal environmental laws and regulations, and to gather information regarding current and past operations and environmental conditions at and in the vicinity of the subject property.
- No attempt has been made to assess the compliance status of any past or present Owner or Operator of the Site with any federal, state, or local laws or regulations.
- The findings, observations, and conclusions presented in this report are limited by the scope of services outlined in our Agreement, which reflects schedule and budgetary constraints imposed by the Client for the current phase of environmental Assessment. Furthermore, the Assessment has been performed in accordance with generally accepted engineering

practices and standards set forth in ASTM E 1527-00. No other warranty, expressed or implied, is made.

- The Assessor's presented in this report is based solely upon information gathered to date. Should further environmental or other relevant information be developed at a later date, Client should bring the information to the attention of VHB as soon as possible. Based upon an evaluation, VHB may modify the report and its conclusions.
- The FirstSearch Technology Corporation Environmental FirstSearch™ Report was conducted under the Notice of Disclaimer/Waiver of Liability included in the summary report.

Notice of Disclaimer

Due to the limitations, constraints, inaccuracies and incompleteness of government information and computer mapping data currently available to FirstSearch Technology Corp., certain conventions have been utilized in preparing the locations of all federal, state and local agency sites residing in FirstSearch Technology Corp.'s databases. All EPA NPL and state landfill sites are depicted by a rectangle approximating their location and size. The boundaries of the rectangles represent the eastern and western most longitudes; the northern and southern most latitudes. As such, the mapped areas may exceed the actual areas and do not represent the actual boundaries of these properties. All other sites are depicted by a point representing their approximate address location and make no attempt to represent the actual areas of the associated property. Actual boundaries and locations of individual properties can be found in the files residing at the agency responsible for such information.

Waiver of Liability

Although FirstSearch Technology Corp. uses its best efforts to research the actual location of each site, FirstSearch Technology Corp. does not and can not warrant the accuracy of these sites with regard to exact location and size. All authorized users of FirstSearch Technology Corp.'s services proceeding are signifying an understanding of FirstSearch Technology Corp.'s searching and mapping conventions, and agree to waive any and all liability claims associated with search and map results showing incomplete and or inaccurate site locations.

In all People to Whom these Presents shall Come, Greeting:

Know Ye, That I, MAE KAHAN, Trustee, of the Town of Middletown,
County of Middlesex and State of Connecticut

for the consideration of One (1) Dollar and other valuable considerations

received to my full satisfaction of CARMELO J. MARINO, of the Town of
Westbrook, County of Middlesex and State of Connecticut

do give, grant, bargain, sell and confirm unto the said Carmelo J. Marino and
his heirs, two (2) certain pieces or parcels of land with all buildings and improve-
ments thereon situated in the Town of Middletown, County of Middlesex and State
of Connecticut, being bounded and described as follows:

FIRST PIECE

A certain piece or parcel of land located on the westerly side of Main Street
Extension in said Town of Middletown, being bounded and described as follows:

Beginning at a Connecticut Highway boundstone located in the Westerly line
of Main Street Extension, which boundstone marks the Northeast corner of the
within granted premises and the Southeast corner of property owned by the State
of Connecticut; continue thence Westerly in a fence line along the land of said
State of Connecticut one hundred eleven and nine tenths (111.9) feet to a point; con-
tinue thence again Westerly along the land of said State of Connecticut three hun-
dred two and one tenth (302.1) feet, more or less, to a point; continue thence in
a Southwesterly direction one hundred eighty-five (185) feet, more or less, to an
iron pipe situated in the Northerly line of land owned by Mary Skarb; continue thence
in an Easterly direction five hundred eighty-two (582) feet, more or less, along
the lands of said Mary Skarb, Mae Kahan, Trustee (formerly the land of Wacław
Milczarski (Wallace L. Milczarski, et ux) and again other land of Mary Skarb
and the land of Thomas and Julia Wnek and the land of John and Veronica Cziganoski,
in part by each, to a point in the Westerly line of Main Street Extension; continue
thence in a general Northerly direction along the Westerly line of said Main Street
Extension one hundred ninety-eight and two tenths (198.2) feet to the point or place
of beginning. The above described premises are shown on a map entitled, "Map
of The Middlesex Supply Company Property, Middletown, Conn. February 1955,
Scale 1"=20'", drawn by L. F. Quirk, C. E.

The above described First Piece is subject to a Lease in favor of The
State of Connecticut as is more particularly described in LEASE dated September
25, 1958, recorded in Volume 294 Page 304 of the Middletown Land Records,

SECOND PIECE

A certain piece or parcel of land situated on the northerly side of Cooley
Avenue in said Town of Middletown being known as Lot No. 14 on a "Plat of

Building Lots Laid out by the Heirs of Earl Cooley, Deceased", which map is on file in the Town Clerk's Office in said Town of Middletown, and more particularly bounded and described as follows:

Southerly: By Cooley Avenue, sixty (60) feet;
 Easterly: By Lot No. 15 as shown on said map, one hundred fifty (150) feet;
 Northerly: By the First Piece, hereinbefore described sixty (60) feet; and
 Westerly: By Lot No. 13 as shown on said map, one hundred fifty (150) feet.

The above described premises are conveyed subject to certain use restrictions for a period of ten (10) years from June 1, 1966 as are more particularly stated in deed from The Middlesex Supply Company to the Grantor herein dated June 1, 1966 recorded in Volume 347 Pages 500-503 of said Middletown Land Records.

Being the same premises conveyed to the Grantor herein by Quit-Claim Deed of said The Middlesex Supply Company dated June 1, 1966 recorded in Volume 347 Pages 500-503 of said Middletown Land Records.

As partial consideration for this conveyance the Grantee herein agrees to pay the taxes on the List of October 1, 1966.

To Have and to Hold the above granted and bargained premises, with the appurtenances thereof, unto him the said grantee and his heirs, ~~successors~~ and assigns forever, to his and their own proper use and behoof.

And also, I the said grantor do for myself and my heirs, executors and administrators, covenant with the said grantee, his ~~successors~~ heirs and assigns, that at and until the enrolling of these presents,

I am well seized of the premises, as a good indefeasible estate in FEE SIMPLE; and have good right to bargain and sell the same in manner and form as is above written; and that the same is free from all incumbrances whatsoever, except as hereinbefore mentioned.

And Furthermore, I the said grantor do by these presents bind myself and my heirs, executors and administrators forever to WARRANT AND DEFEND the above granted and bargained premises to him the said grantee his ~~successors~~ heirs and assigns, against all claims and demands whatsoever, except as hereinbefore mentioned.

NOTE

\$223,000.00

Middletown, Connecticut
March 30, 1967

AFTER DATE, FOR VALUE RECEIVED, CARMELO J. MARINO of the Town of Westbrook, County of Middlesex and State of Connecticut, promises to pay to the order of MAE KAHAN, Trustee, of the Town of Middletown, County of Middlesex and State of Connecticut at said Middletown, Connecticut or at such place as may be designated in writing by said Payee, the sum of TWO HUNDRED TWENTY-THREE THOUSAND (223,000) DOLLARS, with interest at the rate of six and one-half (6½) per cent per annum, payable in monthly installments of ONE THOUSAND NINE HUNDRED FORTY-TWO and 57/100 (1,942.57) DOLLARS each, including both principal and interest, commencing May 1, 1967 and a like sum on the first day of each and every successive month thereafter until said principal sum with interest is fully paid, it being agreed that each monthly installment shall be applied first to the payment of interest on the unpaid balance of this note and the balance on account of principal, the entire balance of said principal and interest to be paid fifteen (15) years from the date hereof; together with all taxes assessed upon this note against the holder hereof and together with all costs and a reasonable attorney's fee incurred in any action to collect this note or to foreclose the mortgage securing the same.

The maker agrees that default in payment of any said installments for the period of thirty (30) days after the same are due and payable, or default in the payment of
